EXPERIENCES

- Java Development Intern at OBSS (July 2022- Now):

I am trained in Java Core, Java Web Development, Java Servlets, JSP Pages, Apache Tomcat, and Postman in this internship. I have implemented Mini Youtube and my personal website by using Java Servlet, Java JSP, Apache Tomcat, HTML, and CSS.

- Quality Assurance Test Engineer Internship at Insumo(March 2022- May 2022):

I have learned Agile, Scrum, Kanban methodologies in the process of developing an IOS application. I have also learned the usage of the tools called Notion, Figma, Zeplin, SwiftUI, SwiftUI Testing, Swift, and XCode IDE.

- Work and Study Student at KUIS AI Media(December 2021-March 2022):

I have started the work and study program with KUIS AI Lab to increase my research abilities & knowledge in ai-related areas such as natural language processing, machine learning, and so on.

- CS101: Hello World(3 months, Online program, October 2021-December 2021):

I have started the CS101: Hello World program conducted by some Koç University students to teach the basics of Python programming language to the high school students, give feedback about their homework, conduct problem-solving sessions, and to develop my teamwork & teaching skills.

- Dima(1 month, Aachen/Germany, September-October 2021):

At the end of September 2021, I started a Sales & Marketing Internship at Dima. I have researched the potential customer volume(road sign/asset managers) for the road asset/sign management application of Dima. I have learned some LinkedIn marketing techniques(filtering location, searching with keywords, etc).

- "Aktek Biliřim"(2 months , Istanbul/Turkey, August-September 2021):

I have done an internship in the business development department of Aktek Biliřim for a period of 2 months. I have dealt with PEST/PESTEL & SWOT & opponent company analysis during my internship. Moreover, I have examined the data in Biliřim500(showing some information about top 500 IT companies) pdf lists of 2019 and 2020 in my internship.

- "Aktek Biliřim"(2.5 months, Istanbul Turkey, June-August 2021):

I did an internship at Aktek Biliřim company at the software development department. I worked on a Chatbot project (Web project). I learned the technologies Apache Maven, XML, spring framework. I have gained information about NLP techniques (such as tokenization and normalization) in text-based projects. I worked on an open-source Turkish NLP library called "Zemberek" ("Zemberek" is written with Java Programming Language)

- "Zarta Potensas" (3 months, Istanbul/Turkey, January-March 2020):

During my internship, I have learned digital marketing and content editing. I have joined to excel, agile, scrum, google data studio, Figma, and canva seminars.

- "Zencan Construction Investment Company" (3 months, Istanbul/Turkey, June-August 2019):

I have translated some financial documents from English to Turkish and vice versa. I have prepared some finance-related word & excel & PowerPoint documents.
